

# Maxim

swept door handle

SHIELDX

SERIOUSLY TOUGH

Maxim is a unique scrolled stylish handle design that combines the new SHIELDX finish with suited hardware styling.

The handle has been designed with a solid grip, softly rounded backplate and integrated spring cassette.

Designed to fit most multi-point door locks fitted with a Euro-cylinder or the Vectis Plus cylinder free multi-point lock. All Vectis handles have a newly enhanced shutter system for excellent weather sealing and has been designed and tested to meet the requirements of PAS 023 – air, wind and water tests.

Available in lever/ lever or lever/ pad options in five finish options; the Maxim is protected by an advanced coating process known as 'SHIELDX'. The finish provides a robust and durable coating in both matt white and black; and highly reflective gold, chrome and smokey bronze.

## Technical information

Corrosion resistance: Meets the requirements of BS EN 1670:2007 Grade 5 – 480 hours

Operation: Tested 100,000 cycles

## Material Specification

Handle grip and backplate: High quality zinc casting or high quality Aluminium casting with SHIELDX protective finish, sprung

Coatings: SHIELDX white, black, polished gold, polished chrome, smokey bronze
