

REGENCY

door handle furniture

Regency is a unique scrolled design that combines a dynamic new shape and finish with a traditional style.

An ergonomically designed grip with a softly rounded backplate, Regency is independently sprung and will fit most multi-point door locks fitted with a Euro-cylinder.

Regency is manufactured from high quality zinc protected by an advanced coating process known as PVD (Physical Vapour Deposition). The process provides a very hard and reflective finish.

Handles are available in Zircon Gold and Zircon Chrome finishes together with white and black powder coated.

Regency is an inspirational range of furniture, offering outstanding resistance to corrosion, setting new standards in hardware design.

Technical information

Corrosion resistance: Meets the Requirements of BS EN 1670:2007 Grade 4 – 240 hours

Operation: Tested 100,000 cycles

Material specification
