

BRITISH STANDARD HIGH SECURITY FORTRESS EURO CYLINDER LOCK

This **British Standard High Security Euro Cylinder Lock** to BS3621:2004 standard meets the exacting demands of the insurance companies and the Police.

Higher security levels are delivered by a 20mm bolt throw on every lock, and both the Sashlock and Deadlock have hardened steel plates to resist drilling, and four hardened steel rollers in the deadbolt to resist hacksawing. Each lock comes complete with a High Security 6 pin Euro Profile Cylinder resistant against picking or drill attack. Bolt through heavy-duty security roses protect the cylinder.

The Fortress Sashlock features a pull and twist action latch which can easily reverse the hand of the lock without the removal of the lock cover or screws.

The Fortress Rebates are available in two sizes 12.7mm (1/2") and 25.4mm (1") - with a choice of either Brass effect, Satin or Chrome effect finishes to match the forends. The Sashlock rebates are non-handed and come complete with full fitting instructions.
