

# CADENZA

autolock handle for aluminium windows

Locking solution for aluminium windows.

Cadenza is a unique espagnolette handle design developed specifically for slim aluminium window profiles.

Cadenza features a robust grip designed for both residential and commercial applications.

The gearing mechanism is self-contained within the handle operating a slide bar which locates into drive pins on the reverse side of an espagnolette bar.

Cadenza provides a simple yet stylish and secure locking handle for slimline casement window designs.
