

Maxim

espagnolette operating window handle

SHIELD X

SERIOUSLY TOUGH

Maxim is a modern stylish espagnolette handle of proven quality and reliability.

Featuring a firm ergonomic grip, Maxim has a distinctive teardrop feature which was the inspiration for the suited range styling.

The button is recessed providing a positive location for ease of operation and added safety. Incorporating a positive stop (offset), the handle locks automatically on closing, yet may be simply released by depressing the button. The handle may be deadlocked for extra security.

Designed for the operation of espagnolette and shootbolt mechanisms, Maxim is available in two designs, offset and in-line in a range of finishes in matt white and black; satin chrome and polished gold, chrome and smokey bronze.

Technical information

Corrosion resistance: Meets the requirements of BS EN 1670:2007 Grade 3 – 96 hours / Grade 5 – 480 hours
Operation: Tested 25,000 cycles
