

NORDIC

traditional hardware for timber

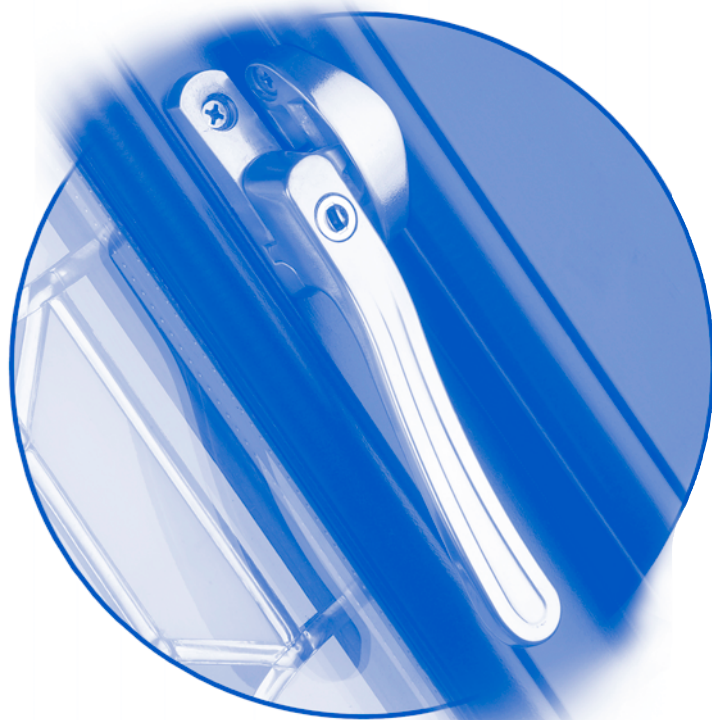

Stylish solutions for timber

The Nordic range of traditional fastener and casement stays is a stylish hardware solution for timber windows.

Designed for both espagnolette and cockspur applications, the Nordic fastener has been engineered with a firm grip and a range of locking and non-locking options for appropriate security.

The cockspur fastener is available with non-handed keep options to suit most window sections, with night vent and an integral sash lift to improve weathersealing.

Casement stays are available in locking and non-locking versions in a standard length 250mm (10") with a range of peg options to suit most window designs.

Technical information

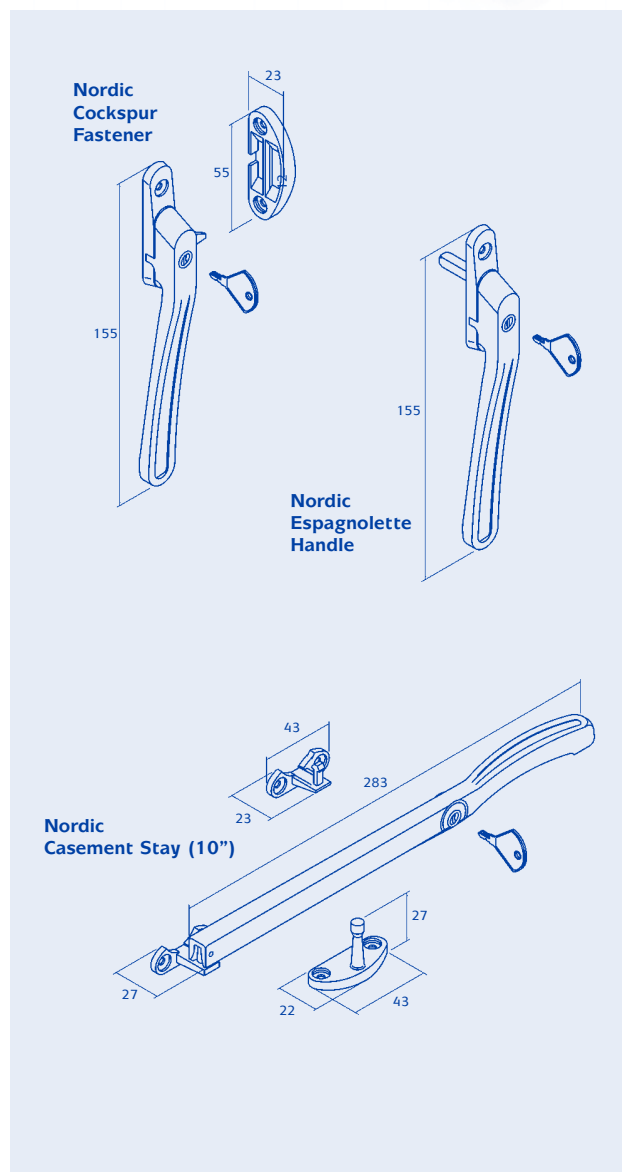

Corrosion resistance:	Meets the Requirements of BS EN 1670:2007 Grade 3
Operation:	Cockspur – BS 6462:1985 capability LSH (UK) internal test procedure D0102
	Casement Stay – BS 6462:1985 capability
	Espagnolette – BS 6462:1985 capability LSH (UK) internal test procedure D0105

Material specification

Handle Grip, Back Plate	
Stay Bar & Pegs:	Zinc Alloy Casting to BS EN 12844:1999
Coatings:	White Powder Paint
	Gold Powder Paint
	Satin Chrome Plate Electroplated to BS EN 12540:2000
	Brass - Polished Antique Gold
Key:	Zinc Alloy Casting and Passivated
Cylinder:	Zinc Alloy Casting and Nickel Plate
Fixing	No.7 x 1¼" (32mm) countersunk head
Recommendation:	corrosion resistant recommended

Product Options

Available in White or Gold Powder Paint, Satin Chrome Plate and Brass finishes.
